Request ID	Requester Name	Organization	Request Description	Received Date
FOIA-22-00154	(b)(6)	-	Request to be provided with a copy of the JAG Investigation if conducted. I understand that this investigation will be reviewed and endorsed prior to its submission to me. I understand that if any documents cannot be provided, I will be notified of this and the reason for denial. Request to be provided with a copy of the NCIS Investigation if conducted. I understand that this investigation will be reviewed and endorsed prior to its submission to me. I understand that if any documents cannot be provided, I will be notified of this and the reason for denial.	08/30/2023
FOIA-22-00246	Wurzburg, Jeff	Locke Lord LLP	we seek copies of all reports, records, communications, and documents that were created, collected, compiled, or received by the Defense Health Agency relating to the TRICARE program during the calendar years 2016 - present that regard, relate to, reference, or concern the investigation and inquiry related to Peripheral Vascular Associates of San Antonio, Texas.	08/11/2023
FOIA-22-00291	Cho, Seungyeon	-	I require health data of soldiers and officers who have been stationed at Yongsan military base in Seoul, South Korea. At here, health data includes leukemia and cancer of the skin, colon, lung, larynx, bladder, and urogenital tract. If there were any serviceperson who were relocated to other country's military base or utterly retired because of health problem after serving in Yongsan base, I want the exact name of disease they suffered from and the number of the cases. I want the data after 2000.	09/08/2023
FOIA-22-00377	Troxell, Steven "Doug"	-	As in previous requests, I am developing my dissertation on a proposed unified treatment model for transgenerational maladaptive/addictive behaviors. As a GS civilian, I have communicated interactions with five of the six service branches as a result of the station with a substance use disorder treatment program in Naval Hospital Jacksonville (SARP) from 2016 to 2019. After reading over each of the assigned instructions, my thoughts are how are each of the branches similar and different? The Navy/Marine Corps/Coast Guard has assigned DAPAs/SACOs/CDARs that in many ways are the liaison between the treatment facility and first-line supervisors. Coast Guard if I am not mistaken does not have a formal substance abuse treatment program to my knowledge? The Army/Air Force/Space Force has ASAP/ADAPT that even though are driven on prevention, the first line supervisors are involved in the treatment process in the form of Rehabilitation Team Meetings (RTMs) with the ASAP/ADAPTs separate from the clinical functions. The Space Force being new, are currently under the umbrella of the Air Force, similar to the Marine Corps to the US Navy. The in-service training/school elements for the staff assigned to each of the service branches. Navy/Marine Corps have the Navy Drug and Alcohol Counselor School (NDACS) training pipeline. I am not clear on the remaining branches. The school programs for military officers are also not clear. My other thoughts are the breakdown of Active Duty, Reservist/GS Civilians/NAF/Contractors in each of the service branches. This will provide insight into the training and level of expertise associated with the make-up of the treatment team. The number of referrals generated annually on average over the past five years (2016-2021) I am in the development phase, and will not be looking to have a final product to submit to the DHA IRB until September 2022. I will also be submitting a final proposal to the Northcentral University program IRB around January 2023. I am open to a video teleconference if necessary to clarify any questions or concerns you may have. I thank you for your assistance and insight as I continue to develop my overall dissertation process	08/09/2023
FOIA-22-00487	Wooldridge, Sarah	Coloradr State university	I am looking for information on total DoD contract dollars issued in each fiscal year and to which US county/territory and congressional district those contracts were executed. It is my understanding that outside USAspending.gov, which only dates back to 2008, there is no comprehensive database for this information. This led me to submitting separate FOIA requests for each DoD agency. I hope to obtain contract data issued prior to 2008. Ideally, I would like records that date back to 1991. However, I understand the burden of acquiring records prior to electronic record keeping. Any/all electronic contract records which exist prior to 2008 will satisfy my request.	07/26/2023
FOIA-23-00001	Hogan, Bill	-	Under the provisions of the Freedom of Information Act, 5 U.S.C. subsection 552, I request access to records of all payments made to pharmacies, for the two most recent years available, under the TRICARE Pharmacy Program. I further request I request that the information I seek be provided in electronic format.	10/03/2022
FOIA-23-00002	Simmerly, Paul	-	All emails, correspondence and communications sent by the Department of Justice or U.S. Attorney General Eric Holder, or received by the Department of Justice or Mr. Holder, regarding the case of U.S. ex rel. Duxbury and McClellan v. Ortho Biotech Products, LP, District Court of Massachusetts Cause No. 03-CV-12189-RWZ. All emails, correspondence and communications, regarding the case of U.S. ex rel. Duxbury and McClellan v. Ortho Biotech Products, LP, District Court of Massachusetts Cause No. 03-CV-12189-RWZ authored by the Department of Justice, any U.S. Attorney's Office, Federal Bureau of Investigation, U.S. Attorney General Eric Holder, (b)(6) (b)(6) Office of Inspector General for the U.S. Department of Justice, Office of Criminal Investigations for the U.S. Food and Drug Administration, Office of Inspector General for the U.S. Department of Health and Human Services, Office of Inspector General for the Department of Defense, Office of the Inspector General for the Office of Personnel Management, (b)(6) All emails, correspondence and communications regarding the decision about whether or not to have the United States intervene in the case of U.S. ex rel. Duxbury and McClellan v. Ortho Biotech Products, LP, District Court of Massachusetts Cause No. 03-CV-12189-RWZ. All Corporate Integrity Agreements involving Johnson & Johnson. All Corporate Integrity Agreements involving Ortho Biotech Products, LP.	10/04/2022
FOIA-23-00003	Conejo, Jenny	-	I would like to know the number of applications for Registered Nurses 0610 that require their education to have been accredited through CCEN, Commission on Collegiate Nursing Education, and the number of nursing applicants that have been turned down for a position stating they don't meet the requirement due to the fact that their school is accredited through ACEN, Accreditation Commission for Education in Nursing. I would like this to specifically be for San Antonio Military Medical Community (BAMC). I would like to know the breakdown of all the BSN nurses working at SAMMC, GS, and active duty military to know if their school was an ACEN or CCEN accredited school. I would like to know how many nurses currently working at SAMMC only have an associate's degree. I would also like to know by section (icu, med-surg, pedi, or clinic) According to the recruitment page for Army, they allow both ACEN and CCEN for active duty nurses but civilian nurses have to be CCEN accredited school, not ACEN accredited school. Please contact me for follow up questions. Thank you	07/17/2023

FOIA-23-00040	Lerner, Sharon	ProPublica	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request the records as described below for the following diagnoses given to active duty personnel, retired service members, and their families as well as members of the National Guard and Reserve and their families, and survivors and other eligible beneficiaries of Tricare. The uniformed services include the U.S. Army, U.S. Navy, U.S. Air Force, U.S. Marine Corps, U.S. Coast Guard, the Commissioned Corps of the U.S. Public Health Service, and the Commissioned Corps of the National Oceanic and Atmospheric Administration through the Tricare system. This request pertains to all geographic areas covered by Tricare worldwide, including TRICARE West, TRICARE East, TRICARE Europe, TRICARE Pacific, and TRICARE Latin America and Canada. For all diagnoses, I request records showing the date of the diagnosis, the age and gender of the person being diagnosed, as well as the zip code of residence of the person, and the installation and medical center at which the diagnosis occurred. Further, I request records documenting the total number of persons at each base, and the total number of patients served at each medical center by year and age. I also request that these records include the unique, anonymous identifier used for each patient. We do not wish to reveal patients' identities. We are not requesting any fields, such as names or dates of birth, that would allow us to identify any individuals. We expect those fields to be left out or redacted. Because many diagnosis codes change over time, we have included both the current and past codes for diagnosis. Note that the Department of Defense has made such data available before, when providing records analyzed in this 2011 paper, "Unusual space-time patterning of the Fallon, Nevada leukemia cluster: Evidence of an infectious etiology." The time frame for our request is 1993 to the present. I would like to receive the information in the following format: electronic, in a comma or tab delimited format, or any file format that allows for analysis of structured data.	11/04/2022

FOIA-23-00107	Haywood, Amy	military spouse	The Tricare Online Portal bars parents from seeing most of their child's online records once the child reaches 12 years of age. MHS Genesis bars parents from 13 years of age onward. What is the DoD Policy that allows this? What is the underlying law that allows for this--HIPAA applies on federal property and MTFs are on federal property. HIPAA allows access to parents until 18 years of age. How do DHA/MHS/Tricare/DOD get around this? I need precise language. I would also like any emails from officials that discuss this policy during its formation and then its implementation. I would think these discussions would have taken place from around 2015 onward as adolescent clinics were becoming a thing. Thank you.	01/23/2023

Specifically, I would like to know more about the procurement process, including the solicitation, evaluation, and award of the contract. As such, I would like to request any and all documents, communications, and other materials related to the procurement process, including but not limited to: The original solicitation for the contract All amendments and modifications to the solicitation Any proposals, bids, or offers submitted in response to the solicitation Any evaluations, scoring, or ranking of the proposals Any contracts, task orders, or purchase orders related to the procurement Any invoices or payment records related to the procurement I understand that there may be fees associated with processing my request, and I am willing to pay these fees as required by law. If my request cannot be fulfilled for any reason, please provide me with a written explanation of why my request was denied. Thank you for your attention to this matter, and I look forward to receiving the requested information in a timely manner.	02/22/2023
FOIA-23-00177	Gross, David	-	I have a complex request for copies of all Defense Health Agency (DHA) information and records on the following subjects from the years 2015 to present related to the public company Lucira Health (Nasdaq: LHDX) [1] and their test-to-treat program with Pfizer (NYSE: PFE) [2]. The information and records I seek are all records, information, timelines, and available communication regarding: The names, locations, and contact information for all DoD hospitals, labs, etc. that received Lucira Health diagnostics PCR tests or were otherwise involved with Lucira Health. The names, locations, and contact information for all DoD hospitals, labs, etc. that were involved in Pfizer's Test-to-Treat COVID-19 program, specifically with Pfizer's Test-to-Treat COVID-19 program with Lucira Health or other comparable PCR testing providers. The names, locations, and contact information for all DoD hospitals, labs, etc. that were engaged in influenza A and influenza B research/testing/rapid point-of-care testing development and where the sources of these influenza A and B samples were from that were later used for vaccine development, etc.. What precedent did the DHA have for sourcing influenza A and influenza B samples from 2015-2023? Number of Lucira Health COVID-19 point-of-care or laboratory PCR tests ordered and the amount of money spent on that number on the order both down payment and payment plan schedule or date of lump sum payment, for all Lucira Health COVID-19 tests (aka potentially Lucira Health SARS-CoV-2 tests if such a distinction exists). The number of tests delivered out of the number ordered. The number of tests used, the break down by day of how many or roughly how many were used. The number of anonymized positives and negative COVID results achieved for those tests that were used, and estimates of false positives, daily if possible. The number of tests that were later recalled. And the last known date of use.	02/23/2023

FOIA-23-00234	Ferrera, Kimberley	-	BLUF: (1)Request detailed explanation of complaint process- factual appeal and grievance- including process map steps of: receipt of mail intake, records management/data input, routing of said appeal or complaint, designation of analyst or representative per issue(s), required communication with beneficiary, and required maximum processing time to respond. (2) Request response to quality improvements for beneficiaries complaints/appeals- time bound tracking and FY goals. I.e., what system is in place to track # of complaints/appeals, types, batching based on incurred frequency, processing time, response time, and month-month improvement key performance indicators or FY goals representing improvements. Discussion: There is no readily available explanation of the complaints process for beneficiaries once a HARD copy mailed complaint is sent to one of the regional receptors. I.e., what happens upon receipt of a mailed letter. Military treatment facilities and private in-network providers include military leadership accountability and patient advocacy to voice concerns regarding the quality of care provided/actual facility, however, there is little accountability reporting chains to provide feedback as to the administrative side of TRICARE- to include enrollment, billing, claims, and pre-authorizations. These functions are not tied to a physical location or facility that allows for a visible leadership reporting chain, ICE comment, or private sector complaints. Question: How is accountability tracked, measured, and improved upon for the administrative process for TRICARE across the regions and the contracting companies that execute the government contract. How is DHA as a whole- holistically reviewing the administrative process across regions and programs so that beneficiaries are provided equitable services throughout required military moves across global territories.	07/06/2023

FOIA-23-00245	McCall, Joanna	COGENY GLOBAL INC.	Dear Sir or Madam: <input type="checkbox"/> This letter is a request ("Request") under the Freedom of Information Act ("FOIA"), as amended, 5 U.S.C. §§ 552, et seq. Pursuant to FOIA, Cogency Global Inc. would like to request the following: We would like any Guidance, Policy Memorandum, Directive or any other type of implemented policy related to the use of prescription medications, including mefloquine, for the prophylaxis and/or chemoprophylaxis of malaria for the 101st Airborne for calendar years 1/1/2008 through 12/31/2009. We request that you provide us with complete and accurate copies or a complete and accurate account of the documents requested. We agree to pay reasonable search and reproduction costs; however, if these costs are projected to exceed \$500, we request that you notify us before incurring costs in excess of that amount. If this Request is denied in whole or part, we ask that you justify all such denials by reference to specific exemptions of the FOIA. We expect release of all segregable portions of otherwise exempt material. We also reserve the right to appeal a decision to withhold any information. We understand that we can expect a response to this Request within 20 business days of your receipt of this letter, as required under 5 U.S.C. § 552(a)(6)(A)(i). We prefer electronic copies of the requested documents, but if courier or shipping is necessary, please contact us for delivery information. Please contact us at (b)(6) or (b)(6) if you have any questions or require any further information. Thank you for your prompt attention to this Request. <input type="checkbox"/> Sincerely,	03/30/2023
FOIA-23-00246	(b)(6)	-	I am a (b)(6) at NMRTC Portsmouth, VA. Nov 14-16, 2022, I was testifying in the Virginia Beach Commonwealth Court in a civilian rape trial, totally unconnected to my role at NMRTC, and was confronted on the stand under oath by the Commonwealth Attorney about some personnel records that were obtained about me. Records that I had understood were private and non releasable. Both my Legal Dept and Directorate have denied being the source of this breach. I am therefore requesting all records pertaining to requests for release of my information from my employment spanning 2010- present day, whether those requests are in writing or electronic. This includes formal requests, subpoenas, memorandums, emails, letters, faxes, etc.	03/30/2023

FOIA-23-00248	(b)(6)	-	I need the actual phone number to report a Tricare employee about an incident that happened at Reynolds Medical Center at Fort Sill. I need to speak with a real person & this employee has been reported to the Army. What we had to go through was horrible. The Pentagon is aware of this report. I need to tell someone in Tricare about it & the main 800 Tricare number isn't any help. I am aware I can make a complaint online & recently told I can mail on in to the San Antonio office. This will not help me & when I looked for the number associated with that address / office it shows a number that's not an even a TX phone number. I called the number anyway & all it does is ring. A voicemail system never come on either. This is a serious matter & I don't want another individual or family to become victims to the behavior we had to suffer through. I am <input type="checkbox"/> also needing the DHA IG to speak with a real phone number to report this but again a phone home number is not found anywhere. I have been searching & calling for 2 weeks. There are major issue at Fort Sill & with Tricare.	03/29/2023

FOIA-23-00250	Hudson, Jennifer	A-Mark Foundation	Dear DOD Defense Health Agency, I am a Policy Researcher for the A-Mark Foundation, a non-profit organization devoted to producing unbiased research on a variety of policy issues. I am working on a policy report analyzing obesity among military recruits and personnel. I have already collected some public materials from RAND and the DOD, including a few recent HRBS, Force Health, and some of the different military branches' health regulations from recent years. However, the data I have been able to find is sporadic and incomplete with what I need for the policy report. I would therefore greatly appreciate some assistance with locating additional documents and information. The statistics I need are: -the percentage of obese recruits going back approx. 25-40 years (i.e. 1980- 2023) -the percentage of recruits rejected on account of obesity from the past 25-40 years (i.e. 1980-2023) -the percentage of recruits rejected due to weight requirements from 1980-2023 -the percentage of □ recruits rejected solely for obesity versus those rejected for multiple reasons, including obesity (i.e. 1980-2023) If possible, I would appreciate a breakdown of each of those percentiles to include: -gender -age -race/ethnicity -Army/Air Force/Navy/Marines/Coast Guard I would greatly appreciate help in obtaining the aforementioned statistics for the policy report. Graphs/charts that include the figures are welcome, if □ available. Any information - even if it is incomplete - would be appreciated. Thank you very much for your assistance with this matter. FOIA-23-00309	Lamb, Matthew	-	Good Afternoon DHA FOIA, My name is Matthew Lamb I'm a US Army Veteran INSCOM Disabled. After months of frustration trying to communicate with the Department of Veterans Affairs to obtain a document or ILER information for Field Station Kunia located in Central Oahu Hawaii. Could the FOIA DHA Defense Health Agency please send me the Individual Longitudinal Exposure Record document or documents for Field Station Kunia "Kunia Tunnel" (KFS) located in Central Oahu Hawaii military tunnel facility built during WWII. A official FOIA request. I really just need a basic report description about this site/military location who its involved or included within the DHA/VA ILER locations. I believe its under Garrison exposures as of 2018 see the VA link below. To my knowledge the ILER information for Field Station Kunia or the Kunia "Tunnel " Field Station (KFS) in Central Oahu which The Department of Veterans Affairs lists on their public health exposures site: https://www.publichealth.va.gov/exposures/kunia.asp Finally, I would just like to obtain a better description as to exactly how this location is under the ILER and for what reasons. If you could send me any additional information about this site where I served besides the VA public health page I would appreciate it? Thank you for your assistance with this matter. If this email contact isn't the right contact for this ILER information at the DHA please forward it to the correct person or place. Sincerely, Matthew Lamb US Army Veteran INSCOM disabled cell: (b)(6)	04/21/2023

FOIA-23-00314	Matsuzaki, Akifumi	-	I request that a copy of the following documents be provided to me: Report of Investigation regarding the murder case allegedly committed by (b)(6) then a 32-year-old Navy corpsman on April 13th, 2019, in Chatan-cho Okinawa, Japan. In order to help to determine my status to request the information, you should know that I am Japan licensed lawyer representing the victim's children, (b)(6) and (b)(6) seeking justice in Japanese forum. The children have dual citizenship both Japan and the U.S. and have been residing in Okinawa for their life. Their mother (b)(6) was reportedly stabbed and killed by (b)(6) in her apartment room in Chatan-cho Okinawa. The suspect killed himself thereafter. NCIS was reportedly investigating (b)(6) case and it is likely NCIS has significant amount of evidence regarding the case. Report of Investigation of this case must contain how and why (b)(6) was killed and background information to the case which are indispensable pieces of evidence to bring justice. (b)(6) body and the bloodshed crime scene was witnessed by my clients (b)(6) and profoundly traumatized them. My clients have been suffering from anxiety neurosis since then and getting support from counselors. I am willing to pay fees for this request, however, up to a maximum of \$100 if that is necessary. If you estimate that the fees will exceed this limit, please inform me first. Please help the children who were rescued from the bloody crime scene of their mother, traumatized by the heinous criminal act. Thank you for your consideration of this request.	04/25/2023

FOIA-23-00315	Copp, Tara	Stars and Stripes	Request description: (b)(6) DHA FOIA officer I respectfully request under the Freedom of Information Act electronic records in Excel format of the following data for ICD9 Cancer codes from FY2000 to FY2015 (ICD codes 140-209) and ICD10 Cancer codes from FY2016 to FY2022 (ICD10 codes C00-C96.) As a member of the media I respectfully request that fees be waived for this request. The number of claims filed by dependents to TRICARE for ICD9 cancer codes from FY2000 to FY2015 (ICD codes 140-209) and ICD10 cancer codes from FY2016 to FY2022 (ICD10 codes C00-C96.) I also respectfully request the data be separated by ICD code, by military service of the covered individual, and by military installation name and military installation state of the covered service member. Last, I respectfully request the total number of dependent claimants per service, compared to the total eligible dependent population, per fiscal year. To help me best understand the data, I also seek the following description and additional details about the data that is obtained, if this extra fidelity is possible: 1.) A description on whether each claim represents an individual, or whether each claim represents a visit (meaning multiple claims at a base could be one individual receiving care multiple times a fiscal year) 2.) Is this the primary claim code in each case? (In my previous work with these codes with the VA, there could be multiple ICD codes on a file but their claims dataset was based on when the ICD cancer code was the primary claim code used.) 3.) Does this dataset include just active duty, or does it include eligible retiree dependents and activated Guard dependents as well? 4.) Is it possible to filter for active duty vs. retiree? 5.) Fidelity on military base separator -- is this where the medical service occurred, or is this the base listed as the current duty station for the active duty member at the time of the claim? 6.) Is it possible to filter cases by age, so there's visibility on claims among eligible children under 26 of active duty service members vs. eligible adults/spouses/partners? I ask because of this report linked below -- so if the data can be sorted this way, may I get that? https://www.health.mil/Reference-Center/Reports/2017/12/18/Pediatric-Health-Care-Services-Report 7.) If the claims represent a visit and each claim does not represent a unique patient, is there a way to generate a report that would show how many individual cases there are? (I.e., hypothetical: Say there were 400 claims at base X under breast cancer codes. Is there anything in the way you track data that can tell you how many patients that actually represents?) Thank you, Tara Copp	04/24/2023

Why were MAs looking for him all day leading up to the search and rescue operation? Why was there signage posted of his face days later when the Nimitz pulled in to Duqm, Oman, to be on the look out for him, that conflict with Navy sources that say the search was called off? I'm just looking for some clarity on this matter.	05/09/2023

FOIA-23-00343	Smith, Sarah	-	I am requesting all policies, memoranda and other documentation that address prioritizing resources at military medical facilities. Specifically I am interested in policies prioritizing resources between departments (e.g., Obstetrics, Pediatric Medicine, Cardiology). I would like DoD-wide policies and polices specific to Madigan Army Medical Center at Joint Base Lewis McChord in Washington State. I am also seeking all records that describe the standards for Obstetrics and Pediatrics. I would like all policies, memoranda, and other documents that define which services, tests, appointments, and procedures are offered to Obstetrics and Pediatric patients. As an example, I would want a policy that defines what well baby appointments are to be offered to children in the first two years of life. To be clear this is one illustrative example. I want ALL policies, memoranda, and documents that define what Obstetric and Pediatric care is to be offered at military medical facilities. I would like DoD-wide policies and polices specific to Madigan Army Medical Center at Joint Base Lewis McChord in Washington State.	05/10/2023

FOIA-23-00348	(b)(6)	DoD DHA SSO	Two requests here - 1. Aug 2022 I and 5 others submitted a formal harassment complaint against (b)(6) to the Force Resilience Office, Office of the Chief of Staff, Defense Health Agency (DHA). (b)(6) took the claim, he passed it off to the DHA IG (b)(6) Aug 2022. I was given an email stating this was moved to the DHA IG then, with the DHA OGC on copy. Since then it went silent. I asked for an update May 2023 as I was never interviewed, nor was any other complainant. The Agency will not provide an update to me the complainant as I believe they did not investigate the claims. I was told to use FOIA by the Force Resilience Office at DHA; DHA OIG told me they would refer my request to the proper authority and that has gone silent. I believe I and others have a right to know if DHA investigated this and how, to include who was a witness (as none of us were) and all relevant information related to our claims in said investigations. If it was not done and pending something they could have said that but that would aid my formal eeo claim. I am asking for all information to my harassment claim filed with the DHA office, Aug 2022, with a (b)(6) where I was then told it was given to (b)(6) and this week advised by DHA resiliency. I am using this for a formal EEO case against said individuals above stating that the agency failed to follow the law when 6 staff people reported harassment by investigating the situation, I for one continued to be harassed to the point of fraudulent allegations led to my suspension. The Agency let us down. I have statements from former SSO employees, chief of HR and COO stating they were never asked about investigating the claims and they stated previous SSO leadership most likely declined. To support my claim, I am only looking in this request for records related to my harassment claim filed with (b)(6) in terms of a status and request for an "internal investigation in the SSO" or an investigation done by DHA HQ, any and all, as well as clarification as to who did that investigation request go to, who was given the task to investigate after that and why was it not done with the complainants. 2. I am also looking for copies of an IG claim where I was a witness twice, to determine dates of various interviews as right after I have testimony I was suspended, after I gave testimony the first time, I was accused of something and (b)(6) was made the deciding official I am looking for a current status of the case concerning (b)(6) including all copies of materials, texts, logs, records, outcomes and referrals within DHA as I am told this was substantiated in its findings and I believe the dates will align with my claims of retaliatory	05/12/2023

FOIA-23-00351	Copp, Tara	Stars and Stripes	Attn: (b)(6) I respectfully request in Excel spreadsheet electronic format a table of each active duty service member claim to ICD-9 cancer codes (140.0 through 209.9) and ICD-10 cancer codes (C00 through C96.9) from FY2000 through FY2022. I request the data be broken out by military service branch, military base, ICD code, and military occupation specialty code (for Army and Department of Navy) or Air Force Specialty Code (for Department of Air Force.) Last, I respectfully request the total number of claimants per service, compared to the total eligible population per service, per fiscal year. To help me best understand the data, I also seek the following description and additional details about the data that is obtained, if this extra fidelity is possible: 1.) A description on whether each claim represents an individual, or whether each claim represents a visit (meaning multiple claims at a base could be one individual receiving care multiple times a fiscal year) 2.) Is this the primary claim code in each case? (In my previous work with these codes with the VA, there could be multiple ICD codes on a file but their claims dataset was based on when the ICD cancer code was the primary claim code used.) 3.) Fidelity on military base separator -- is this where the medical service occurred, or is this the base listed as the current duty station for the active duty member at the time of the claim? 4. If the claims represent a visit and each claim does not represent a unique patient, is there a way to generate a report that would show how many individual cases there are? (I.e., hypothetical: Say there were 400 claims at base X under breast cancer codes. Is there anything in the way you track data that can tell you how many patients that actually represents?)	05/15/2023

FOIA-23-00355	(b)(6)	-	I am requesting the results of a QA review,PSR or Sentinel Event investigation into the care I received prior to being admitted to the hospital on 26 April 22 where I stayed for 18 days. I was released on May 13. I tried from the end of Jan until 12 April to get an appointment with my HCP,(b)(6) I documented my weekly request in RelayHealth. I was told each week to check back. I got so sick that I collapsed on my neighbors steps from throwing up so violently. I drove to the ER because my vomiting had thrown me into Afib. The ER cardio converted me but no one did anything about my violent vomiting. I was told to follow up with my HPC for anticoagulant therapy due to cardio conversion and my age. About 1 week after the Er visit, I noticed I was swollen all over my body. I tried every week for an appointment. I was finally so sick I begged to see someone. I was given a new intern as my new provider. The clinic director called me a told me they would see me but only for refill of my anxiety medication, that I would need to make another appointment for "all my issues". My appointment was 12 April, I was meet by the Clinical Manager who reminded me that this was just for refills and she gave me an appointment for 6 weeks later for "all my problems". I could not wear shoes to the appointment because my feet were so swollen and I could only fit into sweat pants. I saw the intern, told about my violent vomiting, showed her the fluid up to my breast and told her the Er told me follow up with my HCP. She sent home with a diuretic Lasix (I told her I had been taking Lasix for about 7-10 days and it wasn't working). She said hers would work. Sent me home with an appointment for 6 weeks. I drove myself to the ER on 26 April. I was in cardiogenic shock, with kidney failure, liver failure, gall bladder injury, critical potassium and magnesium, large blood clot in my heart, increased heart rate in the high 150-170 with AFib, malnourished and diabetic. I had none of these conditions until I was hospitalized	05/12/2023

FOIA-23-00388	Ziezulewicz, Geoff	Military Times	<p>May 24, 2023 U.S. Defense Health Agency FOIA Office Dear FOIA Officer, Pursuant to the Freedom of Information Act, I am requesting: For all available dates: A copy of the Department of Defense Suicide Event Report (DODSER) database, current as of the date of this request or later. For your reference, DODSER tracks a variety of suicide-related risks and factors, and public information indicates it contains all suicide deaths, and suicide-related behaviors. As you know, FOIA law requires the release of all responsive records. As such, please refrain from withholding documents en masse. Instead, redact the exempt material and provide the responsive record. This information is being sought on behalf of Military Times/Navy Times for dissemination to the general public. My preference is to receive corresponding records in an electronic format via email to (b)(6) As members of the news media and publishers of the primary news publication serving the men and women of the U.S. military, we at Sightline Media Group consider this information to have significant public interest and therefore request that you waive the processing fees. If not waived, I agree to pay any reasonable copying and postage fees of not more than \$20. If the cost would be greater than this amount, please notify me prior to incurring the expense. As provided by the open records law, I request a response within 20 business days. If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. Also, please provide all segregable portions of otherwise exempt material, as required. Please contact me at (b)(6) or (b)(6) if I can clarify or expedite this request. Thanks in advance, Geoff Ziezulewicz Military Times/Navy Times</p>	05/25/2023

FOIA-23-00401	(b)(6)	-	The week before I departed the DHA in February 2023, I realized that emails were being deleted from my work email while I was not even touching the keyboard of my laptop. I asked the Help Desk for help and they didn't provide any help, told me there was no way for that to happen. I then went to the CIO (b)(6) and asked him for assistance to determine what was happening to my email as it was not a glitch. The emails being deleted were all emails from my supervisor, (b)(6) After discussing with (b)(6) and his Deputy (b)(6) I was told to turn in my work laptop directly to (b)(6) on my last day and not the help desk. The laptop would then be provided to a specialist who would run a forensic examination of my laptop and provide a report to (b)(6) on the results. I was provided a verbal update by (b)(6) that "nothing was found" and that if I wanted the report I would need to do a FOIA request. So, I am requesting the full, unredacted, report generated regarding my DHA provided laptop. I am also requesting a copy of all emails, to/from (b)(6) and (b)(6) on the issue of my laptop, deleted emails, and my laptop report.	05/31/2023

FOIA-23-00456	Sechrist, Christa	MacDill AFB / 6 MDG / 6 MDSS	AFI 33-322 Records Management and DHA-AI 5015.01. This is a request under the Freedom of Information Act. I request that a copy of the following document(s) be provided to me: The records pertain to MacDill AFB Pharmacies and /or Sabal Park Pharmacy business rather than private affairs. The records have been either prepared for, used by, received by, or in the possession of staff working at and / or employed by the DoD MacDill AFB and /or Sabal Park Pharmacy. In connection with the transaction of MacDill / Sabal Park Pharmacy business for evidence of the organizations functions, policies, decisions, procedures, operations, or other activities of the United States Government or because of the informational value of data in them. I am requesting any and all email traffic, text messages, all GroupMe texts / chats / group chats, all WhatsApp texts / group chats pertaining to staff communication while working at or employed at MacDill AFB to include Sabal Park as it refers to the hiring, contract discussions and on-boarding of the contract pharmacist (b)(6) from 1 Jun 22 to 30 Nov 22. AFI 33-322 and DHA-AI 5015.01 have determined electronic communication to include emails, text messages, social media and group chat platforms are part of Official DoD Records.	06/27/2023
FOIA-23-00457	Kauffman, Christine	Physicians Committee	Dear Records Officer: The Physicians Committee for Responsible Medicine, pursuant to the Freedom of Information Act, requests copies of the following: Period: Jan. 1, 2019 to present Scope: 1.The current version(s) of all Madigan Army Medical Center Institutional Animal Care and Use Committee (IACUC) protocols related to the training of emergency medicine residents, all annual and triennial reviews associated with those protocol(s), communications to and from the IACUC regarding those protocol(s) or review(s), and IACUC meeting minutes during which those protocol(s) or review(s) were discussed. 2.Documents that include schedules that involve animal use for training emergency medicine residents.3. Documents related to the purchase or acquisition of animals for use in training emergency medicine residents. 4. Necropsy reports, veterinary records, and adverse event documents related to the use of live animals for training emergency medicine residents.5. All photographs and video footage related to the use of animals for training emergency medicine residents. The Physicians Committee is a non-profit organization that promotes effective and ethical scientific research, including promoting alternatives to the use of animals in research, testing, and education. We request that you waive any fee, including search and duplication costs, pursuant to 5 U.S.C. § 552(a)(4)(A)(iii) and 32 C.F.R. § 286.28(d)(1). A fee waiver is appropriate when the agency "determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the Department of Defense and is not primarily in the commercial interest of the requester." 32 C.F.R. § 286.28(d)(1). The purpose of this FOIA request is to determine how the Department of Defense carries out its own regulations. Therefore, a fee waiver should be granted as 1) it is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the Department of Defense and 2) it is not in the Physicians Committee's commercial interest. See 32 C.F.R. § 286.28(d)(1). This FOIA request meets all of the regulatory requirements for fee waivers. The first such factor is "whether the subject matter of the request involves issues that will significantly contribute to the public understanding of the operations or activities of the Department of Defense." 32 C.F.R. § 286.28(d)(3)(i)(A). The Physicians Committee seeks current and/or recent records regarding the use of animals in military training programs which reflect DoD's present, as opposed to historical, operations or activities. The public has demonstrated great interest in the use of animals in DoD research and training. Thus, this factor is satisfied.The second factor concerns the "informative value" of the material requested and "requires a close analysis of the substantive contents of a record, or portion of the record, to determinate whether disclosure is meaningful, and shall inform the public on the operations or activities of the Department of Defense." Id. § 286.28(d)(3)(i)(B). Disclosure of the requested records is needed to inform the public on the operations or activities of the Department of Defense. DoD training courses are not open to the public and internal documents and the documents regarding animal care and use in DoD training courses have never been made public. The documents we seek are just those that illuminate how the DoD cares for	06/27/2023

FOIA-23-00460	Tau, Byron	Wall Street Journal	<p>My name is Byron Tau. I'm a reporter with the Wall Street Journal. This is a request under the Freedom of Information Act ("FOIA"). I request the department provide the following records within 20 business days:</p> <ul style="list-style-type: none"> - Please provide the contract with PIID HT001522F0186 between the Defense Health Agency and Strategic Communications LLC. Please include any statement of work, modifications or change orders. - Failure to respond to this request within the time period required by FOIA could serve as a constructive denial of the Request, and the Wall Street Journal may be deemed to have exhausted its administrative remedies. See 5 U.S.C. § 552(a)(6)(C)[i]. <p>I request a search of records regardless of format or medium to include but not limited to: paper records, electronic records, audiotapes, videotapes, photographs, data, and graphical material. The request should be understood to include but not be limited to: correspondence, letters, emails, text messages, facsimiles, telephone messages, voice mail messages, transcripts, notes, and minutes. The request should also be understood to include attachments and supporting documents.</p> <p>Request to release all segregable portions of exempt information The 2016 FOIA Improvement Act permits the withholding of responsive records only if it is reasonably foreseeable that disclosure would harm an interest protected by a specific exemption of the Act, or if the disclosure is prohibited by law. 5 U.S.C. § 552(a)(8)(A). This foreseeable harm requirement is an additional burden separate from the requirements of any statutory exemption. FOIA further requires that you consider whether partial disclosure of information is possible and that you take reasonable steps to segregate and release any nonexempt information. Therefore, if my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.</p> <p>Permission granted to exclude unit and other detailed pricing information The agency has my permission to exclude detailed pricing information because under existing Supreme Court precedent, such information can in some cases be deemed confidential business information and exempt from disclosure under Exemption 4. The agency has my permission to redact such information to speed processing rather than engage in consultation with the requester. Fee waiver requested</p> <p>I am employed as a full-time reporter with The Wall Street Journal and therefore a member of the news media engaged primarily in the dissemination of information that is in the public's interest and hereby request a fee waiver. I certify that my statements concerning a fee waiver are true and correct to the best of my knowledge and belief. If my fee waiver is denied, I am willing to pay up to \$100 for favorable disposition of my request. Request implicates First Amendment right to newsgathering in the public interest At this time, I am not asking for an expedited processing determination. However, I would like to remind the agency that the Freedom of Information Act was passed by Congress to ensure "the doors of government would be opened." Subcommittee on Administrative Practice and Procedure of S. Comm. on The Judiciary, Freedom of Information Act Source Book, S Doc. No. 93-389 at iii (1974). Part 286, Department of Defense Directive 5400.7, and DoD Manual 5400.07, we hereby request that a copy of the following document be provided to us: 1. A copy of the Determination and Findings (D&F), or similar document, prepared by the Defense Health Agency ("DHA") to support DHA's exclusion of sources from DHA's procurement for the award of the Competitive Plans Demonstration (CPD) contract under Request for Proposals No. HT9402-23-R-0001. For context relevant to this requested record, Section L.2.1 of the RFP provides that "[t]he Government will conduct a full and open competition (after exclusion of sources)" for the award of the CPD contracts. We have reviewed the exemptions to the Freedom of Information Act and we believe that none of the exemptions applies to the material we are requesting. Nonetheless, if you assert that any document is subject to any exemption, please identify it and produce any reasonably segregable portions thereof. As required by 32 C.F.R. § 286.8(c), we anticipate that your office will reply within 20 days of receipt of this request.	07/28/2023

I have removed the following request: * "If you can, describe practical measures you are doing base-wide or within each brigade or battalion to improve morale and mental health" Subject: FOIA Request. Hello staff at the Office of the Base Commander, Fort Carson and (b)(6) Chief FOIA/PA), My name is Mr. Chris Belluomini. I am writing you today, utilizing the Freedom of Information Act, to request recent non-personalized data from Fort Carson, Colorado. I respectfully request that you provide the following: Total number of persons, both military and non-military, who work or live at Fort Carson who: -committed suicide in 2020, -committed suicide in 2021, -attempted to commit suicide in 2020, -attempted to commit suicide in 2021 -The battalion, brigade, or major battle unit that each person is associated with. If fees are required to obtain this data, I request a fee waiver. Doing my research (e.g. reading the Nov. 2021 USA Today article) I understand that Fort Carson command staff are aware of the recent suicide tragedies and this information should be readily available. Please provide this data to me in an email response. If you need to contact me by mail or by phone, please email me back requesting contact information. Thank you and may God bless your efforts to support our soldiers and their families.	08/03/2023

FOIA-23-00574	(b)(6)	Family Emergency Center, 59th Medical Wing, Lackland AFB, Texas	I would like to see the findings and recommendations of (b)(6) USAF, 59th Medical Operations Group, 59th Medical Wing, Lackland AFB, Texas, that he gave to (b)(6) USAF, 59th Medical Squadron, Commanding. (b)(6) appointed (b)(6) as the investigating officer for a commander's informal inquiry of my concerns for personal safety while working in the Family Emergency Center (FEC). This investigation was conducted from December 2022 to January 2023. My meeting with (b)(6) voicing concerns over my safety is what prompted her investigation. A co-worker made repeated witnessed verbal threats of violence against me and, shortly after these threats of violence, made witnessed disturbing comments with words to the effect that killing was easier than working in the FEC. I brought my concerns to my direct supervisor, (b)(6) and was told that I would have to still have to work with this co-worker. That is what prompted me to seek the help of (b)(6) to address my concerns for safety based on the witnessed statement made by my co-worker. I was informed on 04 August 2023 by (b)(6) that he was informed by the 59 MDOS/CC that the informal inquiry showed both I and PA (b)(6) acted unprofessionally in June 2022 during the verbal altercation that occurred in the FEC. Despite the unprofessionalism displayed no further disciplinary action for PA (b)(6) or me was recommended since the incident happened over a year ago. It also cleared me and PA (b)(6) to work together again, with the expectation we should be able to maintain a professional work environment while on shift in the FEC. The witnessed threats of violence and comments about killing were not addressed. The comments were not made in front of me, but were made in front of other staff who reported them to the leadership. The altercation that was referred to happened prior to (b)(6) making the threats of violence against me and comments about killing which prompted concern for my safety. There was no explanation of what would be done to investigate this or to ensure my safety. I was given no explanation to the reasons why the command felt that it was safe for me to work with this individual as his supervising physician in the high stress environment of the Emergency Department. I requested to see what the Informal Investigation findings and recommendations by (b)(6) were so I could understand how (b)(6) came to her decision and how my concerns regarding the comments made by PA (b)(6) were investigated and addressed. (b)(6) interviewed every staff member in the FEC as part of this inquiry. I was the last person he interviewed. (b)(6) informed me that he contacted DHA legal counsel and, based on their guidance, the organization would not provide me the request information and that I would have to request information on this investigation through the FOIA processes.	08/08/2023

FOIA-23-00637	Haywood, Amy	military spouse	The Defense Manpower Data Center has policies that prevent parents in the Military Health System from accessing online medical records of their children ages 13-17. These policies also prevent the 13- to 17-year-olds from accessing their records themselves. May I please have the complete wording of these policies and the legal justification for these policies that bar the adolescents themselves from accessing their own records online (i.e., What law from the U.S. Congress allows for this? What DoD policy allows for this? Or is there some rule making that allowed for this?). I'm submitting a FOIA response from DHA that mentions these vague "current policies" from DMDC that do not allow 13 to 17 year olds to create their own self-service log-ons. What is the rationale behind this? Why can't adolescents, who are supposed to be managing their own healthcare, have their own self-service log-ins. Thank you.--Amy	09/05/2023

FOIA-23-00644	Brant-Zawadzki, Alexander	-	Any of the below information would be welcome. Literally any one thing I ask for, please provide, even if the rest is unavailable; that should not be an excuse to deny me the information I have a right to request. I would like to know how much money the United States military spends annually on private drug/alcohol treatment facilities, such as The Meadows in Wickenburg, Arizona. I would like to know exactly what kind of facilities the US Military has to deal with trauma as expressed through substance abuse, and I would like to know how much they spend in-house versus how much they spent on private treatment facilities around the country. I would also like to know how much money the United States military allocates to trauma counseling for its soldiers, and how much trauma counseling they receive, and the basics on how they are prepared for trauma and trained to handle trauma - Starting from enlistment. IN SHORT: I want to know how much the US Military spends to PREPARE soldiers to be traumatized, and how much the US Military spends in-house on DEALING with trauma; AND I want to know how much the US Military spends on private trauma/substance treatment centers - whatever the category The Meadows in Arizona falls under - how much they spend on places like that. SPECIFIC ENOUGH FOR YOU? I certainly hope so otherwise... god bless amurika	09/07/2023

I do not remember the names of the OSI agents. They are deceased anyway. But I'm sure you can find the record through my father's name, (b)(6), USAF Ret. He was retired maybe a decade before his death in April 9, 1988. He was murdered by his black widow wife. She is alive and drawing my father's pension, as she has for 35 years. My siblings and I are getting old. We still have questions that I feel could be answered by a less redacted version of documents we have seen in the past, as well as anything else is available. It has been 35 years. I am hoping that whatever was secret at the time can now be revealed.	09/07/2023

FOIA-23-00678	Aamot, Colin	-	<p>Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: Records sufficient to identify all employees who entered into a position at the agency as a Political Appointee since January 20, 2021, to the date this records request is processed, and the title or position of each employee (to the extent that individuals have held multiple positions during this time period, identify each title or position and the time period it was held). Records sufficient to identify all career employees who, between January 20, 2021, and the date this records request is processed, have been detailed to 1) a position eligible to be filled by a Political Appointee, or 2) a new position through coordination or consultation with either the White House Liaison or Presidential Personnel Office; the title or position of each employee while on detail; and each employee's originating agency or component, and prior title. For each individual identified in response to Requests 1 and 2 provide: 1. The resume provided by the individual to the agency in connection with determining the appropriate salary for the individual, or if that is not available, a recent resume contained within the agency's records. I no objection to the redaction of employee's contact information, such as email, address, phone numbers etc.; however, prior employment, education, and descriptions of such experiences are not exempt and should be produced. 2. Any waivers issued to the individual pursuant to 18 U.S.C. § 208(b). 3. Any authorizations for the individual issued pursuant to 5 C.F.R. § 2635.502. 4. Any Ethics Pledge waivers, issued pursuant to Section 3 of Executive Order 13989 and Office of Government Ethics Legal Advisory 21-04, received by the individual. 5. FOIA-23-00681	(b)(6)	-	Per instructions from (b)(6) Government Information Specialist, Department of Defense Office of Inspector General Freedom of Information Act: I am contacting you on behalf of (b)(6) This is a Freedom Of Information Act Request for purported autopsy results of (b)(6) allegedly performed by the Department of Defense according to Lowndes County Georgia Sheriff (b)(6) as reported by WALB10 in Valdosta Georgia on September 7, 2023. The (b)(6) have no knowledge of an autopsy the DoD performed on (b)(6) and seriously doubt the U.S. Department of Defense would inject itself into the death of a minor civilian who was not in the delayed entry program, did not die on a military installation, and had no connection to the DoD and perform an autopsy on that minor civilian without the authorization of the parents as well as a court order to exhume the body. The (b)(6) myself, and numerous others believe (b)(6) is misrepresenting the sequences of events, gaslighting, and ultimately accusing the DoD of conducting an illegal autopsy on a minor child for whom they have no jurisdiction to do so.	09/15/2023
FOIA-23-00682	Zimmer, Carl	New York Times	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all materials (including but not limited to emails, memos, reports, and drafts of scientific publications) produced during Walter Reed Army Institute of Research's development and preclinical and clinical testing of SARS-COV-2-Spike-Ferritin-Nanoparticle (SpFN) Vaccine With ALFQ Adjuvant. (https://clinicaltrials.gov/study/NCT04784767). On July 11, 2020, WRAIR's Emerging Infectious Disease Branch issued a press release on creating this vaccine and advancing it into tests (https://eidresearch.org/node/5). WRAIR researchers commenced a number of preclinical studies, which have been published in journals and on preprint servers. In March of 2021, they registered a Phase 1 clinical trial of the vaccine, with a primary completion date of October 30, 2022. In April 2022, they told the media that the trial's results were expected within weeks. But now, 17 months later, WRAIR has not publicly shared any results from the clinical trial in any form. No data has been shared on the clinicaltrials.gov page. I have contacted WRAIR public information officers repeatedly for updates. While the updates have been promised, I have received none. In addition to the scientific results of the trial, I am seeking information about the production and manufacturing of the vaccine, as well as the search for commercial partners. In the January-February 2023 issue of the journal Military Medicine, WRAIR officials published a paper entitled "Cross-Cutting Lessons Learned During the COVID-19 Pandemic—the Walter Reed Army Institute of Research Experience." (https://academic.oup.com/milmed/article/188/1-2/158/6449148) In this paper, WRAIR officials wrote that "during the production of the DoD COVID-19 vaccine at WRAIR, the combination of accelerated timelines and lack of an identified commercial partner led to one failed production run and delays in manufacturing and clinical development." The authors did not go into further details about the failed production run or the delays in development. There has been no other public reporting of these issues. In summary, I would like to receive materials that are relevant to the original design of the vaccine, its testing on animals, the design and launch of the Phase 1 clinical trial, production and manufacturing of the vaccine, the search for a commercial partner, and the release of information about this research.	09/15/2023

F-23-00726	(b)(6)	Defense Centers for Public Health-Aberdeen; DHA	Requesting the investigation package of evidence in a harassment complaint conducted by (b)(6) I, (b)(6) filed a harassment complaint; 9 May 2023 (1st step grievance) and 2 June 2023 (2nd step grievance). An internal investigation concluded on 30 June 2023, that there was no harassment, however, there was overwhelming evidence to suggest otherwise. I am requesting this evidence package to see how the agency came to this conclusion. I believe this investigation had many flaws and this determination has directly affected my career. I have requested this information on several occasions, but the agency has not even responded to my request. I have a right to know how the agency reached their "Notice of Decision". I strongly believe that the evidence package; the agency is withholding or such evidence does not exist.	09/27/2023

2024-00228-F	Zimmer, Carl	New York Times	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all materials (including but not limited to emails, memos, reports, and drafts of scientific publications) produced during Walter Reed Army Institute of Research's development and preclinical and clinical testing of SARS-COV-2-Spike-Ferritin-Nanoparticle (SpFN) Vaccine With ALFQ Adjuvant. (https://clinicaltrials.gov/study/NCT04784767). On July 11, 2020, WRAIR's Emerging Infectious Disease Branch issued a press release on creating this vaccine and advancing it into tests (https://eidresearch.org/node/5). WRAIR researchers commenced a number of preclinical studies, which have been published in journals and on preprint servers. In March of 2021, they registered a Phase 1 clinical trial of the vaccine, with a primary completion date of October 30, 2022. In April 2022, they told the media that the trial's results were expected within weeks. But now, 17 months later, WRAIR has not publicly shared any results from the clinical trial in any form. No data has been shared on the clinicaltrials.gov page. I have contacted WRAIR public information officers repeatedly for updates. While the updates have been promised, I have received none. In addition to the scientific results of the trial, I am seeking information about the production and manufacturing of the vaccine, as well as the search for commercial partners. In the January-February 2023 issue of the journal Military Medicine, WRAIR officials published a paper entitled "Cross-Cutting Lessons Learned During the COVID-19 Pandemic—the Walter Reed Army Institute of Research Experience." (https://academic.oup.com/milmed/article/188/1-2/158/6449148) In this paper, WRAIR officials wrote that "during the production of the DoD COVID-19 vaccine at WRAIR, the combination of accelerated timelines and lack of an identified commercial partner led to one failed production run and delays in manufacturing and clinical development."The authors did not go into further details about the failed production run or the delays in development. There has been no other public reporting of these issues. In summary, I would like to receive materials that are relevant to the original design of the vaccine, its testing on animals, the design and launch of the Phase 1 clinical trial, production and manufacturing of the vaccine, the search for a commercial partner, and the release of information about this research.	09/15/2023
