2024-00024-F	(b)(6)	Retired USAF	<p>On September 22, 2023 I recieved a memorandum via email from TRICARE Health Net Federal Services stating that "Per my request, I (b)(6) have been disenrolled from TRICARE Prime-Retired on August 31, 2023". However, I never made such a request. I recieved an emal on September 25, 2023 stating that I have been disenrolled from my military medical insurance (TRICARE). I first contacted DEERS, and I knew that (DMDC) made a mistake because they didn't want to tell me, and it was disguised as "a relocation". They tried to sell it to me as though I had relocated, and that is why the information was false when in fact, I had relocated 3 years beforehand, and already had a Primary Care Doctor and been receiving medical care long after, so there is no way it was a relocation error.</p> <p>I am seeking the following information: 1. Why was my medical insurance (TRICARE) terminated? 2. How long did I (b)(6) not have medical insurance--what was the specific timeframe that I was without medical insurance after my medical insurance was cancelled? 3. What would have happened should I (b)(6) needed medical attention during the timeframe that my medical insurance (TRICARE) was cancelled? 4. What is the criteria for a client relocation? I would like to know the following: 1) Total number of IRILO cases over the past 5 years 2) # of cases returned to duty via the Air Force's Initial Review in Lieu of (IRILO) medical review process for the past 5 years (if available) 3) Of those returned to duty, how many were returned to duty with a limitation code (over the past 5 years)? 4) Of those who returned to duty, how many were returned to duty with a medical waiver (over the past 5 years)? 5) Of those who returned to duty how many of them were within six months of their separation date (over the past 5 years)?</p>	10/13/2023

2024-00056-F	Harris, Jann	Uniformed Services Family Health Plan (USFHP) /J10	The US Family Health Plan (USFHP) / Designated Providers (DP) *there are 6 DPs total on this program*, just signed their 10 year contracts with a performance period of 01 October 2023 - 30 September 2033. Within their contracts, there is a paragraph that states:  FOIA: No later than 30 calendar days after contract award, the DP shall forward one copy of a Freedom of Information Act (FOIA) releasable contract to the DHA-Aurora FOIA Officer at the following address: Defense Health Agency Attention: FOIA Officer 16401 East CentreTech Parkway Aurora, CO 80011-9066  The DP shall line through all information in the contract which the DP determines is not releasable under FOIA. The DP will also include a legal analysis which supports the DP's determination regarding the non-releasable portions of the contract. Note: DHA considers any measurable performance standards be releasable under FOIA and intends to make no redactions thereof in the publically releasable contract, regardless if the standard was proposed or enhanced by the DP. To be compliant, the DPs are planning to send a copy of a FOIA-releasable USFHP contract to DHA-Aurora, at the address provided in the contract. They want to ensure that it is received by the required 10/31 date. Their question is, can they send this via federal express with signature required? They don't want to complicate things by requiring a signature, however, worry about the package getting lost along the way. 2024-00076-F	(b)(6)	Weed Army Community Hospital	A flag was initiated on me 1 February, 2023 for a Commander's investigation. I was investigation by an Investigating Officer on 20 March, 2023. My flag was removed 12 April, 2023. The unit command identified the investigation as an Equal Opportunity violation. I wanted to kindly request for the full investigation report in order to find out what the finding was. I was just told that it was substantiated, however, the unit did not want to let me know how or what I actually violated. The reason for this is because I am working on appealing the NCOER that was provided to me. I received a letter of concern after the investigation was concluded, but the untrue words on the letter of concern reflected on my evaluation report (NCOER) which could potentially end my military career. I was not initially provided the opportunity to seek legal advice for a rebuttal and now that I have reached out to a civilian attorney, I was advised to put in a FOIA request in order to move forward. As a pilot I get additional pay if I am not medically disqualified for more than 366 days. I had a medical condition come up (bad back and OSA) that drove the medical review process called "IRILO." Medical staff at my base took an abnormally long time (from my perspective) to complete their required admin, while I was doing my best to ensure they had all the information they needed to complete my medical waiver. This administrative lag caused me to lose thousands of dollars of pay.</p> <p>To properly and factually route a complaint through my chain of command I require the log of where the waiver was at and when. The Aeromedical Information Management Tracking System (AIMWTS) the web application that tracks waivers and exception to policy. It marks the beginning of the tracking process. Action: This field describes the specific action or request related to the waiver. It could be a new waiver request, a renewal, an update, or any other relevant action. Status: The status field provides an update on the current state of the waiver request. It may include statuses such as "under review," "approved," "denied," "pending additional information," or other relevant status updates. Individual Sending: This records the name and contact information of the person or office responsible for initiating the waiver request. This could be the flyer themselves, a medical officer, or someone from the flyer's chain of command. Individual Receiving: This field captures the name and contact information of the person or office responsible for receiving and processing the waiver request. This might be a medical review board, a waiver coordinator, or another relevant party. Medical Documentation: Waiver requests often require extensive medical documentation, such as medical records, test results, and other relevant health information. The log should indicate whether this documentation is complete and, if not, what is missing. Review Dates: It's essential to keep track of important dates throughout the process, including the date of initial review, subsequent reviews, and any deadlines associated with the waiver. Comments/Notes: This section is crucial for recording any additional information, comments, or notes related to the waiver request. It may include clarifications, communication with the flyer, or any other relevant details. Approval/Denial Reasons: If the waiver is either approved or denied, the log should document the reasons behind the decision. This information can be valuable for future reference and decision-making. Follow-Up Actions: In the event of an approval, there may be follow-up actions required, such as periodic medical reviews, reevaluations, or other ongoing requirements. These should be noted in the log.</p> <p>As far as the names of the indivual routing the waiver, the only names I am looking to not be redacted are (b)(6) It would be beneficial for me to k</p>	11/28/2023

2024-00164-F	Pell, Michael	Thomson Reuters	<p>Good afternoon, Please find attached a FOIA request for a copy of the Department of Defense Suicide Event Report (DoDSER) System Master File. Please find attached to this email a copy of the final response granting me the same documents I requested in the past and a sample of those records. If you have any questions about this request, please contact me at (b)(6) or at (b)(6) Thank you for your help. Mike Michael B. Pell Reuters News Cell: (b)(6) Email: (b)(6)</p> <p>This is a request under the Freedom of Information Act. On behalf of Reuters News and myself, jointly, I request that you provide us with the following: ?Department of Defense Suicide Event Report (DoDSER) System Master File, Disposition Authority Number DAA-0330-2013-0006-0001. ?Please also provide any and all documentation related to such electronic records, including but not limited to data dictionaries, database documentation, record layouts, code sheets, data entry instructions, and similar printed or electronic documentation materials.</p> <p>The DoDSER system is a structured database used to track and study suicide deaths, attempts and in the case of the Army, acts of self-harm. The system includes more than 500 data elements to provide comprehensive information about the lives of the service members who died by suicide or who engaged in suicide attempts. The DoDSER system uses a web-based form, available via a secure DoD website (https://dodser.t2.health.mil/), to collect and compile data. A DoD Risk Management Framework-approved facility at Fort Detrick, Maryland houses the servers on which the DoDSER system operates. The Department of Defense Inspector General's Office describes DoDSER as "the system of record" for suicide ideations, attempts, and deaths. Please find a full description of the DoDSER system here: https://dpcid.defense.gov/Privacy/SORNSIndex/DOD-wide-SORN-Article-View/Article/570683/edha-20-dod/ Please provide a copy of the database as an excel, text or other, non-proprietary, structured format as required by federal law. DHA provided this data to Reuters in the past in response to a FOIA request, tracking number: 20-00254. Reuters received the data August 4, 2020. Please find the previous response letter attached to this email along with a sample of the data provided in response to the request. In response to Reuters' previous request DHA redacted the names of deceased service members. We ask in advance that you include the names of deceased service members. The name of a deceased service members is a matter of public record and cannot be withheld under any FOIA exemption. This is both explicit and implicit policy set by the Army, Navy, Air Force, Marines and Department of Defense. For example, the Army Casualty and Mortuary Affairs program states on its website in regards to a deceased service member that, "Although families may request their Soldier's name be withheld, it is a matter of public record and may be released without their permission." The Army, like all the other branches and the DOD, implements this unambiguous policy by routinely releasing the name of deceased soldiers, whether killed in combat, training or other circumstances, waiting only until the next of kin has been informed. Each of the branches also release reports detailing how service members have died without redacting the name of the deceased. <del>That said, we are aware of the sensitivity of the names of thousands of deceased service members and will treat this information with the dignity and respect it deserves.</del></p>	11/30/2023

However, there were several people that were either not asked or were asked but their statement wasnt used towards the findings. I am now responding to the deciding official with additional documents, but my response is hindered by a lack of supporting documents provided to me. Additionally, i believe there is lack of duty to service to ensure all parties that can corroborate the situation were asked but again either they were not asked or not asked the right questions to refute the claims.	12/19/2023

One of the tools ICAN uses to gather the raw material it uses in its popular investigative reporting is the Freedom of Information Act (FOIA). ICAN is seeking the information in this FOIA request to allow it to contribute to the public understanding of the government's vaccine safety programs, including the government's efforts to promote vaccine safety. 2024-00384-F	(b)(6)	Bremerton Naval Hospital, WA	<p>Sometime during the period from 13 Mar - 21 Apr 2023, a report was run on my network activity (as a physician assistant working for the Defense Health Agency in WA state) using the P2Sentinel software (or "program"). That report became the basis for further actions, including an adverse action against myself as a GS employee. <input type="checkbox"/></p> <p>I have been associated with the Army in a medical capacity for many years, and neither anyone I know nor I myself have ever heard of this program. This includes a period of being the nominal owner of a suite of software programs for the Army National Guard [MEDCHART], and serving as the Contracting Officer's Representative for our contract with the software vendor. I had to attend meetings and "talk the talk" with software developers, and ensure that contract deliverables were met on time. This experience significantly broadened my understanding of programs and networks. In short, I am concerned that this program, P2Sentinel, operates in the shadows and may be being used in a discriminatory or retaliatory manner against providers. The only way to insure that this is not happening is full and honest disclosure about the nature and uses of this program. <input type="checkbox"/></p> <p>I have the following questions about the P2Sentinel software: <input type="checkbox"/></p> <ol style="list-style-type: none"> <li>1. What is the "P2Sentinel" software: What does it do, what can it do and cannot do (i.e., capabilities and limitations)? Who build this software for the DoD? Who maintains it, and how long does their contract run? Where does this software reside? <input type="checkbox"/></li> <li>2. Who has the authority to request that a P2S report be run on an individual? What are the criteria (or threshold) for running a report? What are the fixed and adjustable parameters fo a query (or report)? <input type="checkbox"/></li> <li>3. How many different types of reports is P2S capable of running? What does a P2S report contain? <input type="checkbox"/></li> <li>4. What does P2S search: hard drives, network drives, e-mail accounts, etc.? <input type="checkbox"/></li> <li>5. Can P2S be used to search a non-DoD email account (or any computer used for that e-mail account) if the e-mail address is in/on an e-mail to a DoD address? <input type="checkbox"/></li> <li>6. Who maintains executive oversight of P2S to insure that no abuses of this system take place? When was the last such review, and what were the results? <input type="checkbox"/></li> <li>7. Please supply a copy of the P2S report referenced above that was run on myself. If redactions are necessary, please justify each and every one of them. <input type="checkbox"/></li> </ol> <p>Thank you</p>	02/06/2024

2024-00441-F	Siri, Aaron	Siri & Gilmstad LLP	IR# 13065C1 Contract W81XWH22C0023, including all attachments, exhibits, and modifications. I am looking for records pertaining to a family advocacy case for my husband and I while he was stationed at Aviano Air Force Base from 2012-2015. Here is the information I provided in a request to a different agency:	04/04/2024
2024-00442-F	(b)(6)	civilian	1. My husband was part of the Security Forces 2. We had multiple no contact orders. I believe they came from security forces, which I assume would also be his command as he was part of that squadron. They were put in place after I called the law enforcement desk to report him for domestic violence and abuse. 3. I cannot remember who my daughter and I were interviewed by, it was either family advocacy or a security forces investigator. We did go to marriage counseling through family advocacy during this time in the late summer / fall of 2013. He was also ordered to anger management at one point, I believe in 2014, but possibly 2015. 4. Dates are hard. I do know one time I reported him when our youngest daughter was only a few months old so that would have been early to mid 2014. He tried to remove her from the home after becoming physically violent with me. He grabbed my head and squeezed and shook it until it was very painful and then threw me. He also grabbed me by the arms and left scratches and bruises and was cursing at me and degrading me in front of our 3 year old daughter. When she began crying he told her to "shut the fuck up". This was all disclosed in the interview and resulted in him being barred from working around children during that time. I also reported him to security forces another time after he abandoned me and my children late at night. He parked the car somewhere far away from our house and left us there and took the keys with him. We were definitely under a no contact order Mar of 2015 and we had been speaking with the security forces commander at that time about the issues of abuse.  Thank you for any information you can send my way regarding these incidents. I have a court date on April 15 and these documents would be very helpful.	02/26/2024

2024-00600-F	Siri, Aaron	Siri & Gilmstad LLP	(1) Records sufficient to show the number of Department of Defense (DoD) beneficiaries who experienced an adverse event following receipt of a COVID-19 vaccine; (2) Records sufficient to show the number of DoD beneficiaries who were contacted by DHA with the intent of offering further investigation of their reported vaccine adverse event; (3) Records sufficient to show the number of DoD beneficiaries who were referred to an IHD regional vaccine safety hub clinical team for follow up following a reported adverse event from a COVID-19 vaccine; and (4) Records sufficient to show the number of cases generated in the Vaccine Adverse Events Clinical System Management Module (VAECS) related to COVID-19 vaccines. Information helpful to fulfilling the request: In response to our client's appeal for FOIA Request #23-00372 (Appeal #24-A-0004), DHA stated that "The CDC provides periodic VAERS reports to the DHA that have the potential of involving DoD beneficiaries. For all submissions in which the submitter indicated they were part of DoD, the VAERS form is then manually reviewed by a DHA-Immunization Healthcare Division (DHA-IHD) clinical team professional. The potential for beneficiary eligibility is investigated by confirming that the patient exists in the Military Health System (MHS) Genesis electronic health record or the Joint Longitudinal Viewer (JLV) application. Reported vaccine adverse events in potentially eligible beneficiaries are reviewed for clinical intervention. Identified beneficiaries are contacted with the intent of offering further investigation of their reported vaccine adverse event. If needed, a case is generated in the Vaccine Adverse Events Clinical System Management Module (VAECS), DHA-IHD's vaccine adverse event case management system, which is used to document progress through the review process. . . . Patient's electing additional assistance or investigation are referred to a provider from the appropriate IHD regional vaccine safety hub clinical team for follow up."	04/17/2024

Copies of all current Army policies related to the use of cadavers for research, education or medical or surgical training — including those related to the USAMRDC Office of Human and Animal Research Oversight's active compliance program to ensure oversight of Army conducted or supported activities with cadavers, including donor authorization. 2. Please provide me with a copy of the most recent year's worth of annual summary reports from those organizations. 3. The document "Army Policy for Use of Human Cadavers for Research, Development, Test and Evaluation, Education, or Training" signed by Secretary McCarthy on Nov. 5, 2019, (see here) requires audits, performed at least twice a year, of DA-conducted or DA-supported activities that involve the sensitive use of cadavers. Please provide me with a copy of the most recent year's worth of such audits. 4. The document "Army Policy for Use of Human Cadavers for Research, Development, Test and Evaluation, Education, or Training" signed by Secretary McCarthy on Nov. 5, 2019, (see here) requires the production of sample cadaver donation forms and donor brochures. Please provide me with copies of such samples and brochures. 5. The memo "Army Medical Training Involving Human Cadavers" signed by Office of Human and Animal Research Oversight Director Kimberly L. Please provide me with the following required documentation as outlined in the 2/16/23 memo for each OHARO approval of training activity involving human cadavers between Jan. 1, 2020 and Dec. 31, 2023: o OHARO Cadaver Submission Form o Description of training curriculum o Donor authorization forms from selected vendor(s) o Letter of support from commander/director of the training facility o Garrison commander letter of support (for training activities that occur in a field setting or on an Army installation)  I would like to receive the information electronically over email, but can also accept it in a thumb drive or CD if necessary. Expedited processing of this request is warranted because there is a "compelling need" for the information sought by the request. 5 U.S.C. § 552(a)(6)(E)(i)(I). Specifically, as a journalist for NBC News, I am "primarily engaged in disseminating information" to the public. 5 U.S.C. § 552(a)(6)(E)(v)(II). In addition, there is "an urgency to inform the public" because the records are being sought for a prospective news story that aims to inform the public — potentially including relatives of the dead who aren't aware of what happened to their loved ones — about the Army's procurement of cadavers. <input type="checkbox"/> For fee categorization purposes, I am a representative of the news media. Through this request, I am gathering information for my journalistic work with NBC News. NBC News is a news organization and this request is made as part of newsgathering.	04/26/2024

2024-00671-F	Howard, Hannah	N/A	<p>Dear FOIA Officer, □</p> <p>I am writing to request access to records related to an incident involving (b)(6) which occurred at Yokota Air Force Base in Japan in early February 2021. (b)(6) who was 34 years old at the time, went missing on February 1, 2021, and it has been reported that he died by suicide shortly thereafter. □</p> <p>Specifically, I am seeking the death investigation conducted by the Air Force Office of Special Investigations (AFOSI) pertaining to (b)(6) case. This investigation, as referenced in a report by Stars and Stripes, is essential for understanding the circumstances surrounding (b)(6) death and any contributing factors. □</p> <p>I am aware that there may already be a Freedom of Information Act request pertaining to (b)(6) as indicated by the following statement in a Stars and Stripes article: "The report was based on records released to the newspaper under the Freedom of Information Act." (Link to article: <a href="https://www.stripes.com/theaters/asia_pacific/2022-06-07/trevor-balint-missing-yokota-japan-6258672.html">https://www.stripes.com/theaters/asia_pacific/2022-06-07/trevor-balint-missing-yokota-japan-6258672.html</a>). I have been unable to locate this report in the DHA FOIA library, however. Therefore, I am inquiring whether the requested investigation report is available for public access without the need for a separate FOIA request. □</p> <p>If the investigation report has not been released publicly or if additional information is required to access it, I kindly request assistance in obtaining a copy of the report through the FOIA process. □</p> <p>Please consider this letter as a formal request under the Freedom of Information Act (5 U.S.C. § 552). If you require any further information or clarification, please do not hesitate to contact me. □</p> <p>Thank you for your attention to this matter. 2024-00672-F	Howard, Hannah	N/A	<p>Dear FOIA Officer, □</p> <p>I am submitting a formal request under the Freedom of Information Act (5 U.S.C. § 552) to obtain records pertaining to an incident involving a service member's spouse who tragically passed away from an intracranial hemorrhage. The incident occurred in Tokyo, Japan in 2023, and is documented in the October 2023 USFJ PLANORD with the subject: "SUBJ/USFJ PLANORD TO INCREASE EMERGENCY ACCESS TO CARE IN JAPAN/MSGID/ORDER/USFJ/" and reference "REF/A/ORDER/INDOPACOM/xxxxxxZ0CT23//." □</p> <p>Specifically, I am seeking access to the following information: □</p> <ol style="list-style-type: none"> <li>1. The assessment referenced in the aforementioned document, which indicated that latency in getting to an operating room was a likely contributor to the spouse's death. □</li> <li>2. The review conducted by USFJ that concluded access to emergency medical care for the total force in Japan is insufficient. I am particularly interested in any findings, recommendations, or actions proposed as a result of this review. □</li> </ol> <p>I understand that certain aspects of the requested information may be sensitive or classified. Therefore, I am willing to accept redacted versions of documents if necessary to protect national security interests. I believe this pertains to matters of public health and safety for military personnel and their families stationed in Japan, as the military community continues to seek safe and effective medical care on the Japanese economy. □</p> <p>If further clarification or information is required, please do not hesitate to contact me. □</p> <p>Thank you for your attention to this matter. □</p> <p>Sincerely, □ Hannah Howard</p>	05/06/2024

2024-00675-F	(b)(6)	Defense Health Agency/NMHH	<p>I, (b)(6) wish to file a Freedom of Information Act request with the DoD Office of Inspector General to obtain copies of all records and information associated with DoD Hotline Complaint (b)(6) and records related to the missing/unfound Report of Investigation (ROI) related to DoD Hotline Complaint (b)(6). I was informed by the DoD OIG that the ROI and requested records could not be located on December 17, 2020. Missing or intentionally unfound ROI records is not a valid FOIA exemption. A reasonable amount of time has passed to allow the Agency to find, release and/or supply a valid legal response regarding the requested FOIA documents and information. I request a waiver of all fees for this request. I am seeking entitled records and information concerning myself for personal use. I request a copy of any records [or the specifically named records] about me maintained at the Defense Health Agency, National Museum of Health and Medicine, Department of Defense, and records regarding me authored by contract employees of the Dawson Contracting Agency or the American Registry of Pathology (ARP). Any records authored by Dawson and formerly ARP contract personnel and maintained on DoD federal computers and property demonstrating a violation or deprivation of my federal employee rights, or Privacy Act rights are required to be released to avoid violations of Federal Acquisition Regulations and Joint Ethics Regulations. The DoD is not authorized to grant immunity or to protect the privacy of federal Non-Personal Services (Dawson/ARP) contractors performing duties outside of the terms of their contracts, acting in violation of contract regulations, or engaged in crimes and retaliation committed against DoD federal employees.</p> <p>In addition, the disclosure of the requested information is in the public tax-payer interest because it is likely to contribute significantly to public understanding of the operations or activities of the government. The basic function of FOIA is to ensure informed citizens, which is vital to the functioning of a democratic society. FOIA is intended to increase transparency and accountability. The act was intended to make U.S. government agencies' functions more transparent so that the American public could more easily identify problems in government functioning and put pressure on Congress, agency officials, and the president to address them. FOIA's special access rule (5 U.S.C. §552(d)) states that FOIA "is not authority to withhold information from Congress". To assist with locating the requested records, I have included the attached support documents that were submitted with the DoD Hotline Complaint (b)(6). These support documents will serve to demonstrate that (1) portions of the information related to this FOIA request has already been released and made public by the federal Agency and therefore there is "no expectation of privacy" on that which has already been disclosed. Where a client seeks or receives advice from an attorney that will serve in the commission of a fraud or crime, and where otherwise protected attorney-client communications or work product are sufficiently related to the crime and were made in furtherance of the crime, (2) the crime-fraud exception applies, and the communications and work product must be disclosed. (3) A federal entity cannot grant immunity or cover up the crimes of a contractor. The additional documents demonstrate that a substantial amount of evidence to support the complaint(s) and the corresponding FOIA request was in fact submitted to whom it may concern. □</p>	05/02/2024

The investigation started on Nov 30, 2023, finished in March 2024, conducted by (b)(6) □</p> <p>I am writing to you to inquire the report of the investigation under the Freedom of Information Act (5 U.S.C 552). □ Looking forward to hearing from you.</p>	05/06/2024

2024-00680-F	(b)(6)	Weed Army Community Hospital	I submitted a FOIA request late last year and it was granted for an Equal Opportunity violation. Despite asking for the full investigation report in order to find out what the finding was, I was given an investigation report with only my sworn statement and not statements from others who were questioned. Can I please request for the 1574-1 for the report of proceedings by investigation officer which has the commander's signature on there? I am kindly requesting this because I received a letter of concern after the investigation was concluded, but the untrue words in the letter reflected on my evaluation report which could potentially end my military career. I am also requesting this new FOIA request because I believe the investigation was mishandled and also because the way my NCOER was written, they also made it seem as if I violated another program "SHARP" according to the way the NCOER was written, which is also untrue as there was no investigation for that. I am actively seeking legal guidance on this and the FOIA request to hopefully receive the 1574-1 and investigation report to its entirety would be helpful as I was not initially given the opportunity to seek legal advise on this or the opportunity to do a rebuttal. Thank you so much for your time. I do appreciate it. ☐	05/07/2024

2024-00745-F	(b)(6)	-	DHA IG Complaints (b)(6) dated April 2024. I filed this complaint due to concerns about my treatment as a patient and how my patients are being treated and followed up. I am a USAF Physician, and a Patient at Wright-Patterson Medical Center. Specifically, if possible I need the IG assessments of my healthcare in the 88th Med Group. I underwent two "Command Directed Mental Health Evaluations" which gave conflicting results. The first CDMHE was done appropriately, included adequate evaluation and recommended voluntary counseling. The second CDMHE was initiated with false information before I completed counseling. I need as much information as possible about these CDMHEs as they have destroyed my reputation, my military career, and my overall health. If possible, I also need as much information as possible about the Quality Assurance Investigations that were done. I reported multiple Patient Safety Concerns to my command, these reports were used against me instead and these QAIs did not include all the information. I need as much information as possible about the investigation into the treatment of my patients. Several of my patients were harmed, I reported it, but instead of helping me or my patients I was reprimanded against using these investigations. If possible, I need to know where the false information was given to the USAF and why the USAF allowed verifiably false information to be used in these CDMHEs and QAIs. Any other information about the investigations of my own medical treatment or the treatment I gave to my patients would be greatly appreciated. My Birthdate is (b)(6) I am looking for any documents relating to the USMRL study I participated in between 2009-2011(unsure of exact dates) to alleviate the impacts of tinnitus on my daily life. The study was conducted on Fort Rucker at USMRL at the time and used white noise therapy specifically designed for my hearing loss and tinnitus frequency. I did several appointments at the Laboratory as well as receiving a small white noise device that I used for one to two hours daily. The Therapy was very helpful. Looking for the amount of time and number of engagements I had in this study.  I am seeking some record of what the number of appointments/engagements etc were with this study. Ie how many times I was at USAARL. How much time I was told to dedicate to the device daily etc.	06/07/2024

I was on active duty for basic training and AIT from September 5, 2005, to April 13, 2006. I was later mobilized for Operation Enduring Freedom from April 14, 2009, to May 7, 2010, where I was deployed to Bagram, Afghanistan. I was in Theater for 10 months and 7 days. While at Bagram, I received medical treatment at the BTIF Infirmary, which was the WP8DAA facility. I received treatment for the following medical conditions: insomnia, depression, back strain lumbar, nonorganic circadian rhythm sleep disorder, contusion with intact skin surface lower limb- unspecified, and contusion with intact skin surface lower leg. Upon leaving the military service, I never received these medical records. I have found some encounter notes on a selected few, but not the ones listed above. I have requested numerous times a select few of my service treatment records from the Department of Veterans Affairs, Release of Information, Claims Intake Center in Janesville, WI, and the National Archives &amp; Records Administration Research Services (RDT1R) in Washington, DC, which has resulted in the above agency saying they have "No Record" or that Records must be requested through the Department of Veterans Affairs, which says they have No Record. 2024-01086-F	Turse, Nick	Type Media Center	Dear FOIA Officer,  Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request the FOIA request logs, with all available fields. The time frame of this request is January 1, 2023 to the date that this request is perfected. I request you search all electronic and paper-based records systems and databases for these materials and provide any/all of these records in electronic format if possible. I also request a cross-reference search. I specifically request that you include so-called "non-responsive"material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA "does not provide for . . . redacting non-exempt information within responsive records." As declared by the court, "once an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record—i.e., as a unit—except insofar as the agency may redact information falling within a statutory exemption." Also, under "FOIA Improvement Act of 2016" "each agency, in accordance with published rules, shall make available for public inspection in an electronic format ... copies of all records, regardless of form or format .... that have been requested 3 or more times." This clause is within (a)(2), which has no provision whatsoever for fees. The statute explicitly says "requested", not "provided." If my request is rejected, I will file two additional requests so that it will meet the requirements of the statute. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Please ignore the "willing amount" and notify me by email prior to your incurring any expenses in excess of \$ .01. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a member of the news media and this information is of timely value, I would appreciate your communicating with me by email, rather than by mail, if you have questions regarding this request. Please do not close this request, for any reason, unless I explicitly request it in writing. I look forward to your reply within 20 business days, as the statute requires, and request, per 5 USC § 552(a)(7)(B)(ii), that you provide me with an estimated date of completion at the same time and every 20 days thereafter. Thank you for your assistance.	09/10/2024
